Bevat: ZIB-1398.

Publicatieversie 3.3.1 (15-10-2023)

Bevat: ZIB-1923

1.2 Concept

The OutcomeOfCare concept describes the determined status of the patient in terms of a certain problem. Comparing the healthcare result with the treatment objective provides insight into the effectivity of the nursing interventions/activities carried out for this problem. It is a part of the nursing process, together with nursing diagnoses/problems, the treatment objective and nursing interventions.

1.3 Mindmap

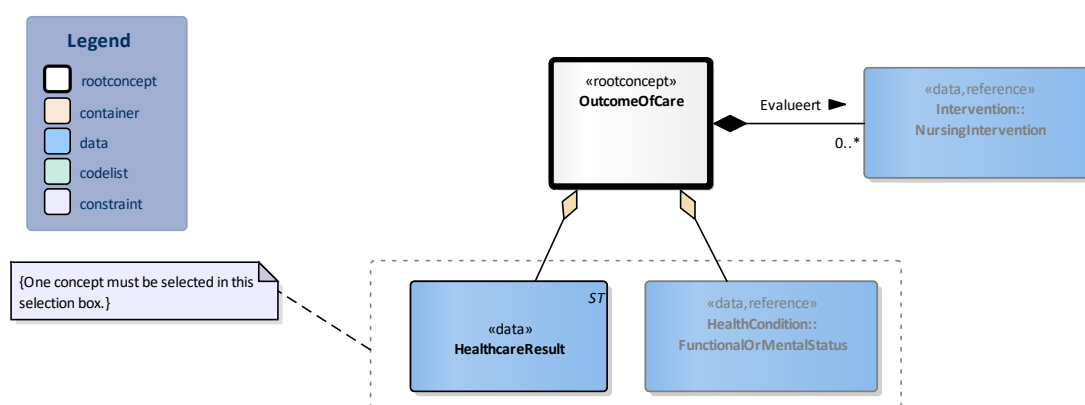

1.4 Purpose

Healthcare results are important parameters for evaluating the patient's health and monitoring the effectivity of the medical treatment and nursing interventions.

1.5 Patient Population

1.6 Evidence Base

1.7 Information Model

«rootconcept»	OutcomeOfCare	
Definitie	Root concept of the OutcomeOfCare information model. This root concept contains all data elements of the OutcomeOfCare information model.	
Datatype		
DCM::ConceptId	NL-CM:13.4.1	
DCM::DefinitionCode	SNOMED CT: 423100009	Results section
Opties		

«data»	HealthcareResult	
Definitie	The textual account of the healthcare result. If HealthcareResult cannot be entered as a functional/mental status, it can be described as free text in the healthcare result.	
Datatype	ST	
DCM::ConceptId	NL-CM:13.4.5	
Opties		

«data»	HealthCondition::FunctionalOrMentalStatus	
Definitie	A description of the patient's health condition in the form of a functional and/or mental status.	
Datatype		
DCM::ConceptId	NL-CM:13.4.3	
DCM::ReferencedConceptId	NL-CM:4.26.1	This is a reference to the rootconcept of information model FunctionalOrMentalStatus.
Opties		

«data»	Intervention::NursingIntervention	
Definitie	A description of the nursing intervention of which the effectivity is evaluated with the healthcare result.	
Datatype		
DCM::ConceptId	NL-CM:13.4.4	
DCM::ReferencedConceptId	NL-CM:14.2.1	This is a reference to the rootconcept of information model NursingIntervention.
Opties		

	Legend	
Definitie		
Datatype		
Opties		

	Constraint	
Definitie	One concept must be selected in this selection box.	
Datatype		
Opties		

1.8 Example Instances

UitkomstVanZorg	
Zorgresultaat	
Zorgresultaat	Vochtinname 1,5 liter/dag.
Interventie	
Interventie	Bevorderen van vochtinname.

1.9 Instructions

1.10 Interpretation

1.11 Care Process

1.12 Example of the Instrument

1.13 Constraints

1.14 Issues

1.15 References

1.16 Functional Model

1.17 Traceability to other Standards

1.18 Disclaimer

The Health and Care Information Models (a.k.a Clinical Building Block) has been made in collaboration with several different parties in healthcare. These parties asked Nictiz to manage good maintenance and development of the information models. Hereafter, these parties and Nictiz are referred to as the collaborating parties. The collaborating parties paid utmost attention to the reliability and topicality of the data in these Health and Care Information Models. Omissions and inaccuracies may however occur. The collaborating parties are not liable for any damages resulting from omissions or inaccuracies in the information provided, nor are they liable for damages resulting from problems caused by or inherent to distributing information on the internet, such as malfunctions, interruptions, errors or delays in information or services provide by the parties to you or by you to the parties via a website or via e-mail, or any other digital means. The collaborating parties will also not accept liability for any damages resulting from the use of data, advice or ideas provided by or on behalf of the parties by means of the Health and Care Information Models. The parties will not accept any liability for the content of information in this Health and Care Information Model to which or from which a hyperlink is referred. In the event of contradictions in mentioned Health and Care Information Model documents and files, the most recent and highest version of the listed order in the revisions will indicate the priority of the documents in question. If information included in the digital version of a Health and Care Information Model is also distributed in writing, the written version will be leading in case of textual differences. This will apply if both have the same version number and date. A definitive version has priority over a draft version. A revised version has priority over previous versions.

1.19 Terms of Use

The user may use the Health and Care Information Models without limitations. The copyright provisions in the paragraph concerned apply to copying, distributing and passing on the Health and Care Information Models.

1.20 Copyrights

A Health and Care Information Model qualifies as a work within the meaning of Section 10 of the Copyright Act (Auteurswet). Copyrights protect the Health and Care Information Models and these rights are owned by the cooperating parties.

The user may copy, distribute and pass on the information in this Health and Care Information Model under the conditions that apply for Creative Commons license Attribution-NonCommercial-ShareAlike 3.0 Netherlands (CC BY-NC-SA-3.0).

The content is available under Creative Commons Attribution-NonCommercial-ShareAlike 3.0 (see also <http://creativecommons.org/licenses/by-nc-sa/3.0/nl/>)

This does not apply to information from third parties that sometimes is used and / or referred to in a Health and Care Information Model, for example to an international medical terminology system. Any (copyright) rights that protect this information are not owned by the cooperating parties but by those third parties.

Nictiz is the independent national competence centre for electronic exchange of health and care information. The activities of Nictiz include the targeted development and management of information standards at the request of and in partnership with the stakeholders in healthcare. Nictiz advises these parties on all aspects of information exchange and identifies (future) national and international developments.
