1.1 Revision History

Publicatieversie 1.0 (01-07-2015)

Publicatieversie 3.0 (01-05-2016)

Bevat: ZIB-453

1.2 Concept

The Short Nutritional Assessment Questionnaire (SNAQ) is a (validated) measuring tool for determining the extent of a patient's malnutrition. The tool comprises three questions, each of which is assigned a score. The total score determines the extent of malnutrition.

The SNAQ helps to recognize and treat malnutrition at an early stage.

Three varieties of the measuring tool were developed for different care settings: hospitals, nursing and retirement homes and independently living seniors. This concept describes the tool intended for the hospital setting.

1.3 Mindmap

1.4 Purpose

The SNAQ score is used to determine the extent of malnutrition or the risk of malnutrition. To treat malnutrition quickly and effectively, it is important to identify the malnutrition at an early stage.

1.5 Patient Population

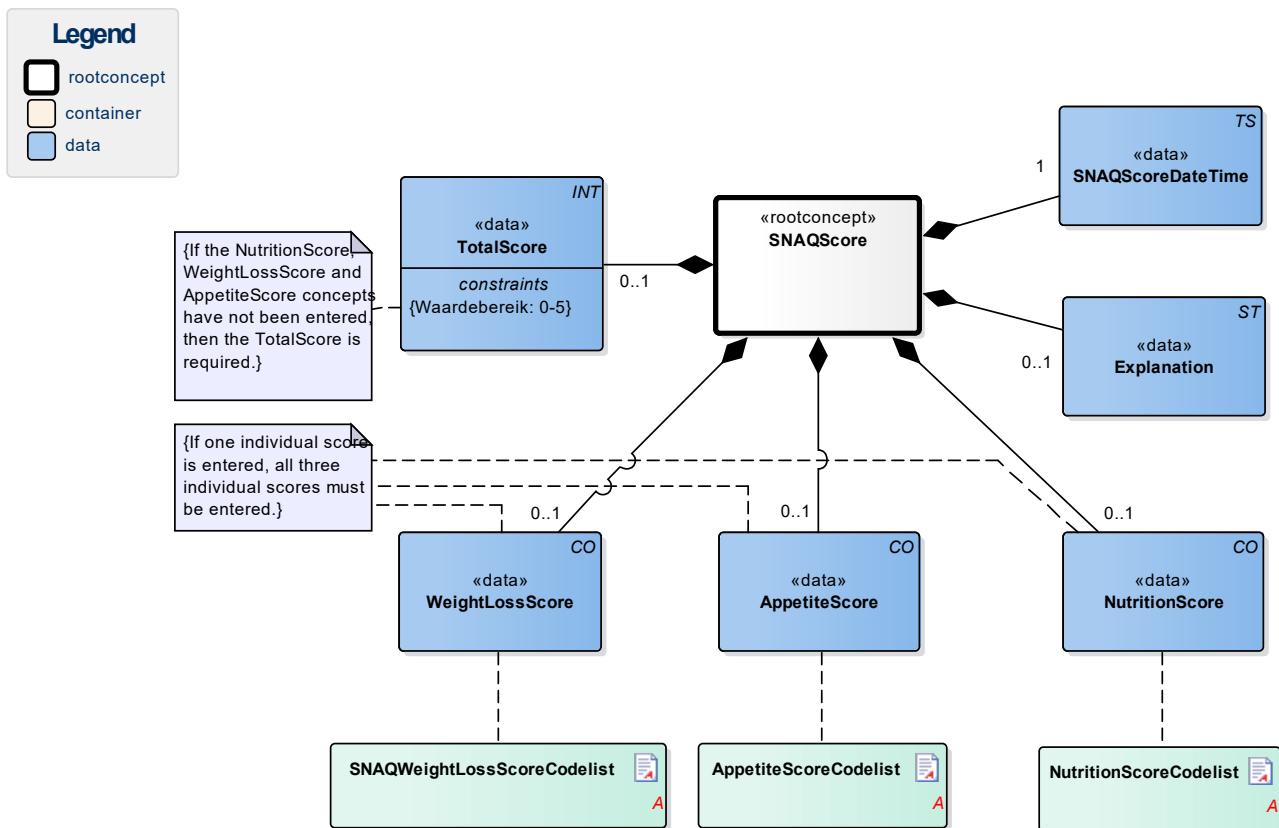

The SNAQ is meant for patients over 18 years of age who are staying at the hospital.

1.6 Evidence Base

To determine the extent of malnutrition, SNAQ has a number of tools, validated for different settings:

- The ⁶⁵⁺ SNAQ was developed for the group of seniors (> over 65) who live at home and who may make use of care at home.
- The SNAQ^{RC} (Short Nutritional Assessment Questionnaire for Residential Care) is available for screening for malnutrition in nursing and retirement homes.
- The STRONGkids tool is available for screening for malnutrition among children.

1.7 Information Model

«rootconcept»	SNAQScore
Definitie	Root concept of the SNAQScore information model. This root concept contains all data elements of the SNAQScore information model.
Datatype	
DCM::ConceptId	NL-CM:4.6.1
Opties	

«data»	WeightLossScore
Definitie	The score based on undesired weight loss over the past month(s).

Datatype	CO
DCM::ConceptId	NL-CM:4.6.3
DCM::ValueSet	SNAQWeightLossScoreCodelist st
Opties	OID: 2.16.840.1.113883.2.4.3.11.60.40.2.4.6.1

«data»	AppetiteScore
Definitie	The score based on a reduced appetite over the past month.
Datatype	CO
DCM::ConceptId	NL-CM:4.6.4
DCM::ValueSet	AppetiteScoreCodelist
Opties	OID: 2.16.840.1.113883.2.4.3.11.60.40.2.4.6.2

«data»	NutritionScore
Definitie	The score based on the use of fluid or enteral nutrition over the past month.
Datatype	CO
DCM::ConceptId	NL-CM:4.6.5
DCM::ValueSet	NutritionScoreCodelist
Opties	OID: 2.16.840.1.113883.2.4.3.11.60.40.2.4.6.3

«data»	TotalScore	
Definitie	The total score is the sum of all the individual scores. The total score has a range from 0 - 5.	
Datatype	INT	
DCM::ConceptId	NL-CM:4.6.2	
Opties		
Constraint	Waardebereik: 0-5	Voeg hier de Engelse definitie in

«data»	SNAQScoreDateTime
Definitie	The date and time at which the SNAQ score was determined.
Datatype	TS
DCM::ConceptId	NL-CM:4.6.6
Opties	

«data»	Explanation
Definitie	An explanation of the circumstances during the measurement.
Datatype	ST
DCM::ConceptId	NL-CM:4.6.7
DCM::DefinitionCode	LOINC: 48767-8 Annotation comment
Opties

1.18 Disclaimer

This Health and Care Information Model (a.k.a Clinical Building Block) has been made in collaboration with several different parties in healthcare. These parties asked Nictiz to manage good maintenance and development of the information models. Hereafter, these parties and Nictiz are referred to as the collaborating parties. The collaborating parties paid utmost attention to the reliability and topicality of the data in these Health and Care Information Models. Omissions and inaccuracies may however occur. The collaborating parties are not liable for any damages resulting from omissions or inaccuracies in the information provided, nor are they liable for damages resulting from problems caused by or inherent to distributing information on the internet, such as malfunctions, interruptions, errors or delays in information

or services provided by the parties to you or by you to the parties via a website or via e-mail, or any other digital means. The collaborating parties will also not accept liability for any damages resulting from the use of data, advice or ideas provided by or on behalf of the parties by means of this Health and Care Information Model. The parties will not accept any liability for the content of information in this Health and Care Information Model to which or from which a hyperlink is referred. In the event of contradictions in mentioned Health and Care Information Model documents and files, the most recent and highest version of the listed order in the revisions will indicate the priority of the documents in question. If information included in the digital version of this Health and Care Information Model is also distributed in writing, the written version will be leading in case of textual differences. This will apply if both have the same version number and date. A definitive version has priority over a draft version. A revised version has priority over previous versions.
