1.2 Concept

The functional or mental status provides insight into the patient's functional and mental limitations.

1.3 Mindmap

1.4 Purpose

The patient's functional and mental status can be recorded to provide insight into the patient's limitations which need to be taken into account for further treatment and care and in order to evaluate the effects of a

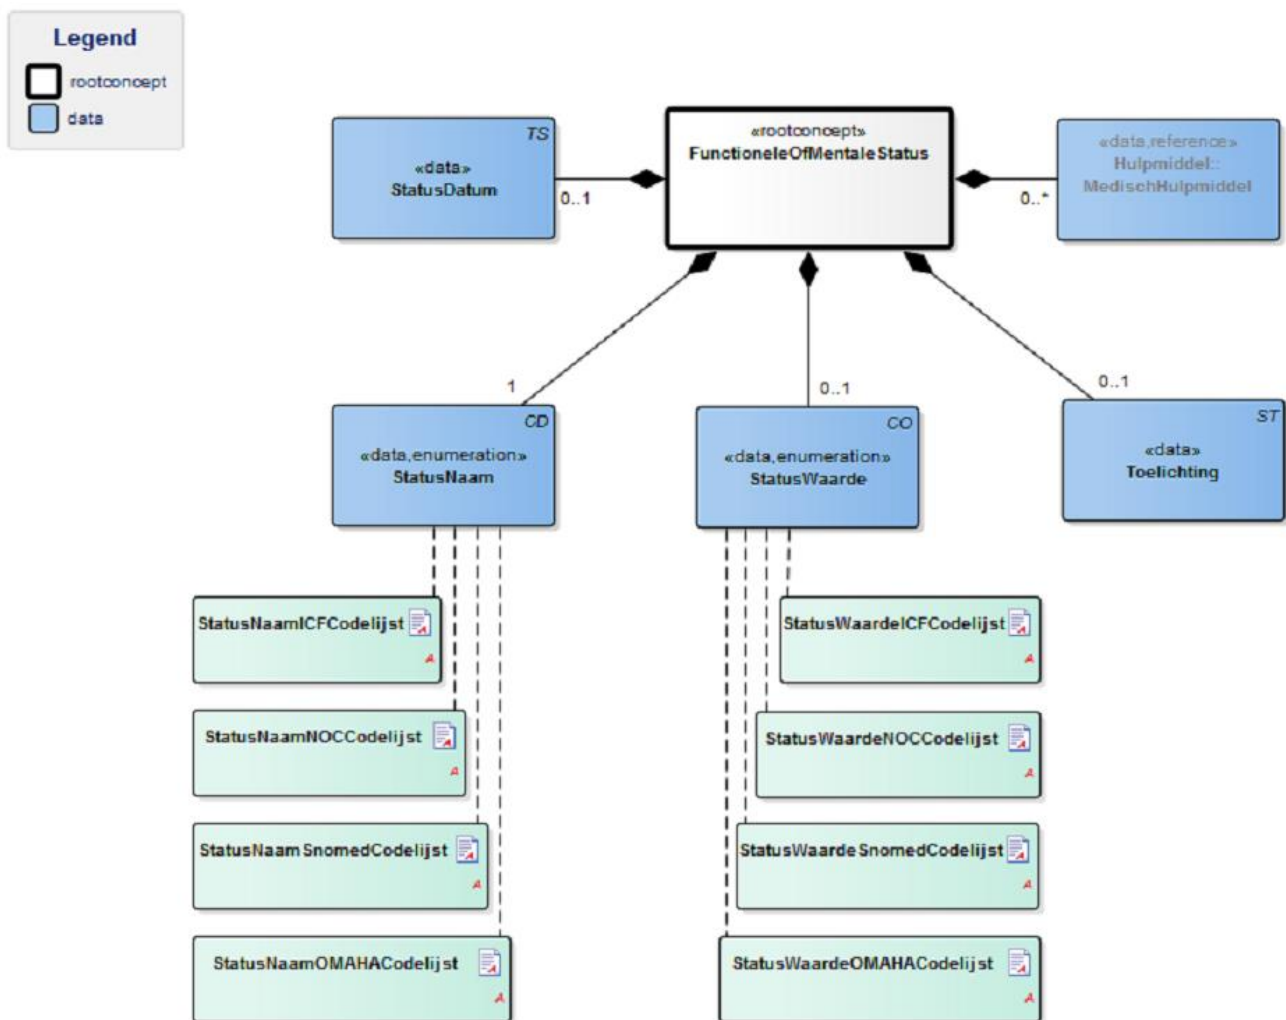

treatment.

Diagnoses with (the potential for) functional limitations are not to be recorded here. To record these, please use the ConcernTransfer information model.
