Publicatieversie 1.0 (04-09-2017)

Publicatieversie 1.0.1 (31-12-2017)

Bevat: ZIB-618.

Publicatieversie 1.0.2 (31-01-2020)

Bevat: ZIB-888.

Publicatieversie 1.0.3 (01-09-2020)

Bevat: ZIN-911, ZIB-1011.

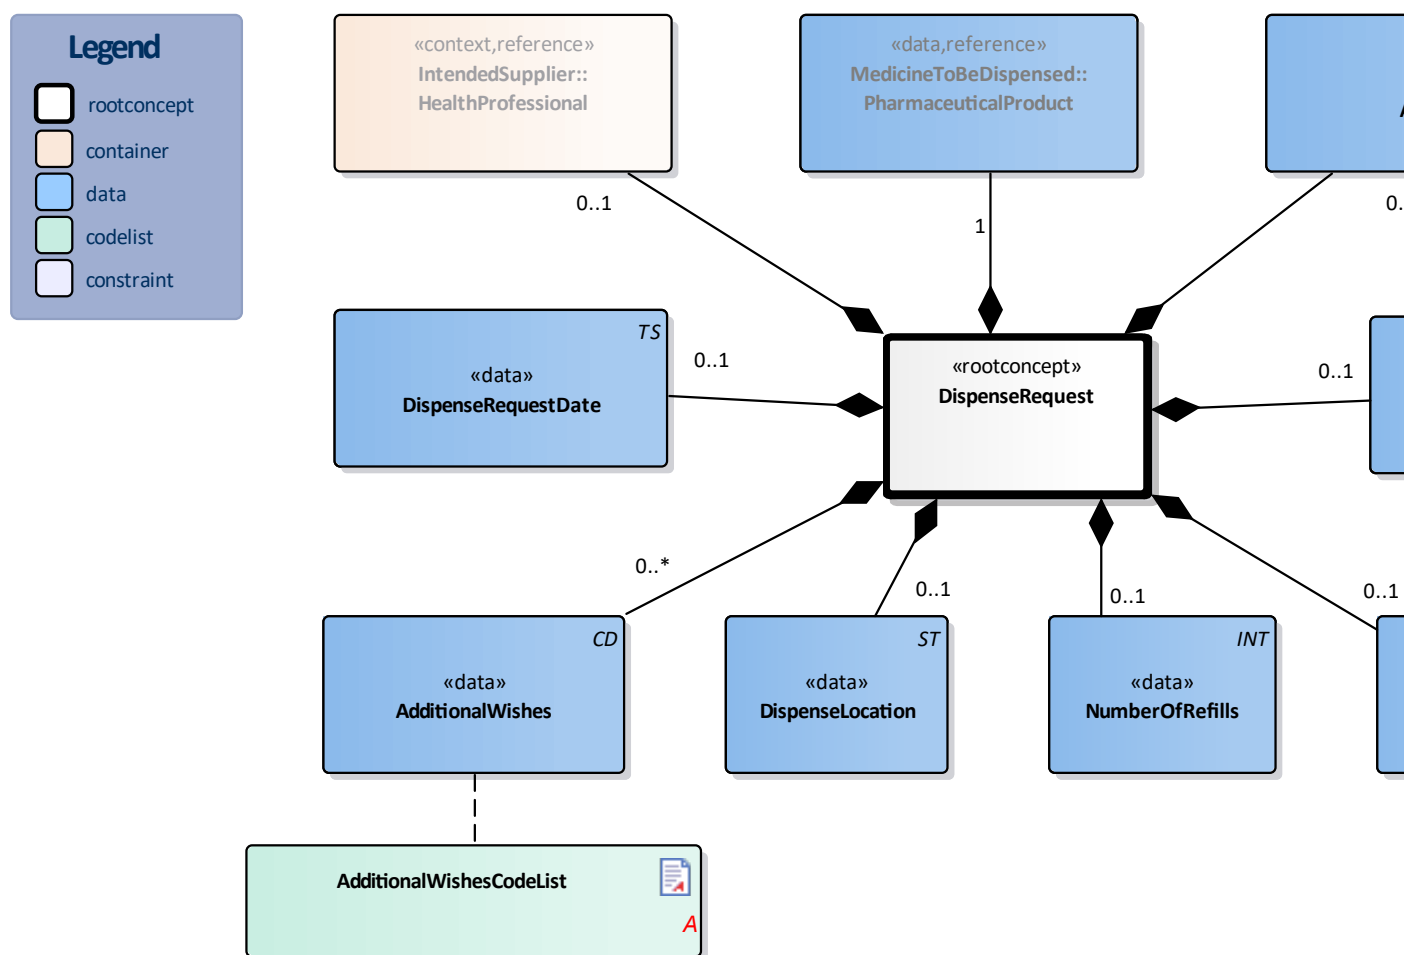

1.2 Concept

The dispense request is the request of a prescriber to the pharmacist to dispense medication(s) to a patient to support current medication agreements. The prescriber asks them to dispense a certain amount of medicine or to dispense medicine(s) for a period of use.

1.5 Patient Population

1.6 Evidence Base

1.7 Information Model

«rootconcept»	DispenseRequest	
Definitie	The dispense request is the request of a prescriber to the pharmacist to dispense medication(s) to the patient to support current medication agreements. The prescriber asks them to dispense a certain amount of medicine or to dispense medicine(s) for a period of use.	
Datatype		
DCM::ConceptId	NL-CM:9.10.19963	
DCM::DefinitionCode	SNOMED CT: 52711000146108 Request to dispense medication to patient (situation)	
Opties		

Definitie	The medicine to be dispensed.	
Datatype		
DCM::ConceptId	NL-CM:9.10.22249	
DCM::ReferencedConceptId	NL-CM:9.7.19926	This is a reference to the rootconcept of partial information model PharmaceuticalProduct.
Opties		

«data»	DispenseRequestDate	
Definitie	Time at which the dispense request is entered.	
Datatype	TS	
DCM::ConceptId	NL-CM:9.10.20060	
Opties		

«data»	PeriodOfUse	
Definitie	<p>During the approved period of use, the pharmacist has permission to dispense medicine so that the patient has a sufficient amount of medication.</p> <p>In many cases, the approved period of use can be described by only an end date: the approved end date of use.</p>	
Datatype		
DCM::ConceptId	NL-CM:9.10.20062	
DCM::ExampleValue	21-05-2017	
DCM::ReferencedConceptId	NL-CM:20.3.1	This is a reference to the rootconcept of partial information model TimeInterval.
Opties		

«data»	NumberOfRefills	
Definitie	<p>The number of additional times the medication may be dispensed after the first time.</p> <p>In the case of <i>Amount</i>: The total amount that may be dispensed is: (Number of refills + 1) x amount to be dispensed.</p> <p>In the case of <i>Period of Use</i>: The total period of use is: (Number of refills + 1) x period of use</p>	
Datatype	INT	
DCM::ConceptId	NL-CM:9.10.22120	
Opties		

«data»	Amount	
Definitie	This is the number of units of the ordered product per dispense. The number of refills indicates how often this amount is allowed to be dispensed. Optionally a translation to NHG table Gebruiksvoorschriften (Table 25) is also allowed.	
Datatype	PQ	
DCM::ConceptId	NL-CM:9.10.19964	
Opties		

Definitie	Logistics and other instructions such as: do not enter in GDS, urgent, purposeful deviation, etc.	
Datatype	CD	
DCM::ConceptId	NL-CM:9.10.22759	
DCM::ValueSet	AdditionalWishesCodeList	OID: 2.16.840.1.113883.2.4.3.11.60.40.2.9.10
Opties		

«data»	Comment	
Definitie	Explanation for the dispense request. This explanation can contain e.g. information on why a prescriber submit a dispense request that deviates from the norm, e.g. an extra dispense request needed because the patient has lost the medication.	
Datatype	ST	
DCM::ConceptId	NL-CM:9.10.22274	
DCM::DefinitionCode	LOINC: 48767-8 Annotation comment	
Opties

The Health and Care Information Models (a.k.a Clinical Building Block) has been made in collaboration with several different parties in healthcare. These parties asked Nictiz to manage good maintenance and development of the information models. Hereafter, these parties and Nictiz are referred to as the collaborating parties. The collaborating parties paid utmost attention to the reliability and topicality of the data in these Health and Care Information Models. Omissions and inaccuracies may however occur. The collaborating parties are not liable for any damages resulting from omissions or inaccuracies in the information models.

included in the digital version of a Health and Care Information Model is also distributed in written version will be leading in case of textual differences. This will apply if both have the same number and date. A definitive version has priority over a draft version. A revised version has priority over previous versions.

1.19 Terms of Use

The user may use the Health and Care Information Models without limitations. The copyright provisions in the paragraph concerned apply to copying, distributing and passing on the Health and Care Information Models.

1.20 Copyrights

A Health and Care Information Model qualifies as a work within the meaning of Section 10 of the Copyright Act (Auteurswet). Copyrights protect the Health and Care Information Models and these rights belong to the cooperating parties.

The user may copy, distribute and pass on the information in this Health and Care Information Model under the conditions that apply for Creative Commons license Attribution-NonCommercial-ShareAlike 3.0 Netherlands (CC BY-NC-SA-3.0).

The content is available under Creative Commons Attribution-NonCommercial-ShareAlike 3.0 (Netherlands) (<http://creativecommons.org/licenses/by-nc-sa/3.0/nl/>)

This does not apply to information from third parties that sometimes is used and / or referred to in the Health and Care Information Model, for example to an international medical terminology system. Any rights that protect this information are not owned by the cooperating parties but by those third parties.

Nictiz is the independent national competence centre for electronic exchange of health and care information. The activities of Nictiz include the targeted development and management of information standards at the national level and in partnership with the stakeholders in healthcare. Nictiz advises these parties on all aspects of information exchange and identifies (future) national and international developments.
